

Achieve Your UK Nursing Career With Self-Sponsorship Pathway! **From India**

A banner image showing a doctor in a white coat and stethoscope using a tablet. The background is a blue gradient with various medical icons like a DNA helix, a first aid kit, and a microscope. The text 'About us' is written in white on a dark blue background on the right side.

About us

↙ ONT Global offers comprehensive training programs tailored to the specific requirements of the OSCE stations and skills. If you are a nurse currently working in India, use the self-sponsored NMC OSCE pathway route and get a higher chance of getting a Band-5 nursing job through our NHS clients (based on your speciality and experience). We're committed to helping you achieve your professional ambitions confidently and successfully.

We've crafted a dynamic program to enhance your learning experience. Recognizing the challenges nurses face both during their OSCE assessments and as they transition into the UK healthcare system, we've developed a focused 12-day intensive on-site course. This combines with in-person sessions to ensure you are fully prepared. Our training centre, located in Kottaramattom, Pala, is centrally situated in the Kottayam, offering a welcoming and supportive environment. Let us guide you towards success as you embark on this exciting new chapter of your career!

OSCE Program from home Country - INDIA

The OSCE self-sponsorship pathway is tailored for nurses seeking UK NMC registration (PIN) without needing a job offer while still in their home country. This pathway allows you to obtain NMC registration prior to the expiration of your language proficiency test (IELTS/OET/CBT).

A majority of employers are more open to sponsoring or employing nurses with a valid NMC registration. This pathway also allows nurses to visit the country before relocating for work. The program involves the following steps:

- Begin your NMC registration process
- Successfully complete the NMC CBT Exam
- Submit your documents for NMC registration and identity verification
- Attend OSCE training
- Schedule your OSCE examination & Accommodation
- Apply for a UK visa
- Arrive in the UK and undergo refresher training/Mock Test
- Complete OSCE and identity verification checks
- Obtain NMC registration PIN

Benefits of OSCE programme:

01

Take advantage of our outstanding course pattern, enabling nurses to swiftly gain proficiency and seamless transition into their roles.

02

Enjoy a top-tier educational experience grounded in the best practices from the leading education institution, enhanced by hands-on simulations to accelerate your skills development and ensure real-world readiness.

03

Learn from seasoned OSCE trainers, offering expert guidance to help you excel in every station and skill.

04

Train in a specialized centre designed to mirror the OSCE assessment environment for realistic, hands-on preparation.

05

Take part in an engaging blended learning approach with in-country preparation, focused practice, constructive feedback, and lasting support after the course.

At ONT Global, we're committed to making your journey effortless, offering seamless support from your OSCE training to securing the ideal registered nurse position in both the NHS and private sectors. Let us guide you every step of the way!

10-Day Immersive OSCE Training Experience

- ▶ Participants will attend an immersive 10-day residential training at our Kottayam Academy before departing for the UK.
- ▶ Participants will also receive a 2-day refresher course and mock test at our training centre High Street, Stone, Staffordshire in the UK, which includes a mock test.
- ▶ You will receive 4 weeks of access to our E-learning platform, complete with study aids, mock tests, and an extensive FAQ section.
- ▶ Complimentary refresher training will be available upon request.
